Dear Honorable Mayor Kenney,

I along with the executive board of Teamsters Joint Council No. 53 would like to re-iterate the Teamsters support of the Philadelphia, Ports proposal for the PIDC, to develop 97 acres of the Navy Yard property for port related issues.

The development of this property is crucial to the development of warehouse, and logistics centers that is vital to the development of the Port of Philadelphia. This project will not only create new jobs but make Philadelphia a world class port that is able to compete in a global market going into the future.

Your assistance in this matter is greatly appreciated.

Sincerely,

William Hamilton  
President
